Vivosun grow tent instruction manual

Preview Grow Tent Size ChartWhew, how was Lesson 1? Not bad at all, I see you passed. Join me in setting up this Vivosun 5'x5 Grow Tent. By now, you know how many plants go into your preferred sized grow room and that the structure and setup are similar on all brand variations. . Setup can be tricky here are some Pro Tips to keep in mind. also a cop of the Grow Tent Size Chart is in the Lesson Media for a point of reference or download here.Pro TipsClean area thoroughly where tent will be placed. A little bleach never hurt. Place the Grow Tent as close to the air conditioning vent in the room and as far away as possible from any window or heat.Make sure you have all needed tools or supplies needed to setup tent. Vivosun did not require any additional.Everything included in box but check with the manufacturer. Find the Vendor Brand Label on the Grow tent when you unroll for install. Use that as a mark for the top of the tent for positioning and placement.Corner adapters keeps poles locked inMake sure that fabric is securely place on all corners of grow tent.Where do I put my Grow Tent?What's in the Box:Tent bodyMetal poles and connectorFilter strapsFloor trayHanging barStep-By-Step Grow Tent InstallRemove all materials from boxVerify all materials are included per instruction manual Use the poles and connectors to create the frame of grow tent. Take the portion of the tent fabric that has the brand logo and place it on the top of the frame any direction.Locate the zipper that helps to mount and stabilize the tent.Begin to shape the entire fabric around the frame, placing the bottom portion underneath the frame body.Start to pull the fabric under and up to the other side of frame.Continue to zip as you manipulate the tent onto the frame until the fabric is firmly place on all sides and the zippers meet to completely close structure. Nếu muốn trực tiếp trao đổi với chúng tôi, bạn có thể liên hệ đến số Hotline 1900 545 584 và Email order@giaonhan247.com The company made sure it only uses the best materials available, allowing you to start your indoor garden the soonest time possible and to do it for a considerable amount of time.However, does this cheap grow tent work as good as the company claims it to be? In this grow tent review, I will discuss in more detail if this product is truly high-quality or not.Design & Durability When it comes to design and durability, Vivosun made sure to have a simple but useful design and use only the best materials without making their product too expensive.MaterialThe company used 600D canvas for the grow tent, a top-quality material that is tear-proof. To ensure its durability and optimal light-blocking capability, Vivosun double-stitched the canvas when they designed the overall layout. This gives you a long-lasting and sturdy canvas for your grow tent.FrameFor the frame, Vivosun used metal poles and corner adapters to pair with their canvas. These frames add to the durability and stability of the grow tent, so you will not have to worry about the tent losing its balance or falling apart.Reflection & Seal QualityVivosun uses an exceptional design for the grow tent to maximize its light-retention function. They use the "diamond" reflective mylar design that provides a 98% grow light reflection, which means you will not have to worry about your cannabis plant not getting the right amount of light while inside the grow tent. The Vivosun also used a heavy-metal zipper that has a double layer black lining. It also has dual drawstring closures on the duct openings so you can properly seal the fan and avoid light leakage. The company also used dual layers for its ventilation, where the inner layer seals tightly around the ventilation fan, and Velcro covers the exhausts to add to its good seal quality.Ventilation & Exhaust DuctA good grow tent is not complete without the proper ventilation and exhaust ducts to provide your plant with the right amount of air and ensure healthy plant growth. Vivosun's cheap grow tent is anything but, what with the way the ventilation and exhaust system is built. The opening and ventilation are arranged in a way that maximizes carbon filtering and dispensing of CO2.You can also use the openings for cables and wires when you are setting up your grow light. Each opening has the proper cove that is needed to ensure the light will not escape. The exhaust ducts have a mesh on the opening to use for ventilation.Safety FeaturesVivosun used a heat-resistant material for the grow tent. This keeps the canvas from easily catching fire, and it can withstand even the highest levels of heat. It is also tear-proof. Moreover, the company looks after your safety as you assemble the tent with tool-free clips and connectors. If you do not need to use a lot of tools, you reduce the risk of injuries.Extra FeaturesThe grow tent comes with a viewing window to allow you to look and check your plant without the need to unzip the tent. It also has an inner tool organizer where you can properly put and organize the tools you need when you care for your plant. This ensures you will not misplace them anywhere or leave them lying around inside the tent. There is also a removable floor tray that is designed to catch spillage from your plant. The floor tray is waterproof, reflective, and is easy to remove. The removable tray helps in making it easy to clean the grow tent.Grow Tent Sizes & Assembly Sizes The grow tent comes in various sizes, with the smallest having a dimension of 24"x24"x36", while the largest has a dimension of 120"x120"x80". The standard and most popular size for the company's grow tent is the 48"x48"x80". The standard size will allow you to fit 6-8 plants in 3-gallon pot each. The bigger the size of the tent, the more plants you can fit.PictureGrow Tent ModelFeatures2.5x1.530"x18"x36" dimensionComes with Viewing Window and Floor Tray2x224"x24"x48 dimensionComes with Viewing Window and Floor Tray2.7x2.732"x32"x62" dimensionComes with Viewing Window and Floor Tray3x1.636"x20"x62" dimensionComes with Viewing Window and Floor Tray3x336"x36"x72" dimensionComes with Viewing Window and Floor Tray4x248"x24"x60" dimensionComes with Viewing Window and Floor TrayCan fit 8 small-sized or 3 full-sized plants4x448"x48"x80" dimensionComes with Viewing Window and Floor TrayIncludes grow light and can fit 16 small-sized or 8 full-sized plants5x560"x60"x80" dimensionComes with Viewing Window and Floor TrayCan fit 25 small-sized or 7 full-sized plants8x496"x48"x80" dimensionComes with 2 Viewing WindowsCan fit 28 small-sized or 8 full-sized plants8x896"x96"x80" dimensionComes with 2 Viewing WindowsCan fit 30 small-sized or 10 full-sized plants10x10120"x120"80" dimensionComes with 2 Viewing WindowsCan fit more than 90 small-sized or more than 30 full-sized plantsWhat's In The BoxWhen you purchase the grow tent from Vivosun, the box will come with all of the necessary materials you will need to assemble the tent. This includes the metal poles and connector, tent body, reflective floor tray, hanging bar, and filter straps. The instruction manual and 2 extra metal poles are also included inside the box. You might need the extra poles to help install the grow lights.Ease of UseSetting up the grow tent is easy and simple. You will not need to use additional tools or equipment during assembly. The company provides an instruction manual as a guide for the installation. Start with putting the frame together and then fitting the canvas over it.Vivosun also made sure that the ducts and openings are located in appropriate places to make it easier for you to install cables and set up the ventilation system and grow lights inside the tent. Warranty & Customer Service Vivosun is so confident about the quality of their grow tent that they offer a 30-day money-back guarantee (1) for whatever reason you might have. They are also offering a full refund of the product, as long as it is undamaged. The company will also shoulder the cost to ship the product back to them, provided that the reason for returning it is quality related.Vivosun also offers a 1-year warranty for any quality-related issue. This warranty comes with the option of a full refund or a product replacement. The company will also shoulder any shipping cost. When it comes to customer service, Vivosun's team is responsive and cooperative. They always reply promptly, or at least within 24 hours, to any customer complaints or issues and will provide solutions that are helpful to the people. The customer service team will even offer a partial refund for certain issues. Reaching them is easy, just visit the company's Contact Us (2) page and call their hotline or send an email. A representative will quickly respond to your queries. These people are always after the satisfaction and happiness of the customer when they purchase Vivosun's products. This is reflective of people's comments and feedback about the company. Value for Money There are numerous features and benefits that this tent provides, giving you a good value for the money you will spend when you buy this product. The product costs as low as \$54 to as much as \$370, depending on the size. The price is good, considering the features that the grow tent offer. This shows that the cheap grow tent Vivosun offers provides the best bang for your buck. You can easily start your indoor garden without the need to spend more.DownsideThe main downside with this grow tent is that its instruction manual lacks the proper information. A lot of customers complained about having a hard time assembling the tent since the instructions are incomplete. It would be good if Vivosun provides a proper step-by-step guide for customers to follow and make assembling the tent easier. Another downside is the lack of a windowless option for the grow tent. Not everyone uses the viewing window of the tent and there are also concerns that the window is causing the light inside to leak out, even if the cover is closed.Who Should Buy this Grow Tent?The Vivosun Grow Tent is designed for people who want to grow cannabis but do not have the outdoor space for it or a huge budget for a complete indoor setup. The tent comes in many different sizes, providing you with the flexibility to work with any space you have in your home. If you are a beginner, you can start off with something small, just enough for 1 or 2 plants to make it easier to take care of and not use too much space in your home.Anyone with an extra \$54 can purchase this grow tent from Vivosun. This means budget do not have to be a problem.Final VerdictThe final score for the Vivosun Grow Tent is 4.25 out of 5. The company made sure to provide a high-quality product using some of the best materials available and putting in the right number of openings for ventilation and other uses. Vivosun's design made this a mylar grow tent, which means it can optimally reflect light. The company even added other features like an inner pocket to put your tools in, and a removable waterproof tray for easy cleaning. The company's excellent customer service team and affordable price also add to its good overall score.However, I could not give the company a perfect score since they fall short in certain aspects and people complained about it. Despite the negative points, I still believe this grow tent is a great buy, especially if you are looking to start an indoor garden with a limited budget. The many benefits that this tent offers have far outweighed any downsides of the product. You are getting a great and good quality product for the amount of money that you spend. Zipper with black lining create a light-proof seal without the need for additional flaps and self-adhesive tapeEXTRA-THICK, STANDS STURDY: The top-quality 340p oxford is tear proof and double stitched for perfect light blocking. Lined with non-toxic PE material, it is more safe for your plant, and the tent is supported by strong metal poles that are specially finished for smooth installationATTENTION TO DETAIL: Little is more annoying than a low-quality zipper, so we've gone to great lengths to ensure our heavy-duty metal zipper is the best on the market BrandVIVOSUNManufacturerUnbrandedAssembled Product Dimensions (L x W x H)48.00 x 48.00 x 80.00 InchesOne of my legs was missing. Upon delivery i open my package and reading mu inventory sheet 8 legs was supposed to come with it.Helpful?Zippers are really tight and it feel like they can break at anytime. The velcro is also in the wrong area so you cannot connect the velcro pieces when its open. I have the exact same tent already and this one appears defective. The velcro is at the back corner when it should be stitched in the middle.Helpful?Garbage Zipper, zipper tract warped and disconnected after 24 hours of use. This is the second tent I have gotten. The first one having major light leaks.Helpful?Helpful?Customer Q&AGet specific details about this product from customers who own it.About our pricesWe're committed to providing low prices every day, on everything.
